SUMMARY

I am an SAP ABAP and SAP BTP Consultant with almost five years of hands-on experience, delivering S/4HANA implementations, building automation solutions on BTP, and developing integrations using SAP CAP. My expertise spans ABAP, CDS, OData, SAP CAP, UI5, Adobe Forms, and a basic working understanding of the ABAP RESTful Application Programming Model (RAP) for service-oriented and clean-core aligned development. I have also worked closely with SD and MM processes in both enterprise and migration projects, giving me strong techno-functional exposure.

TECHNICAL SKILLS

- **ABAP Development & Enhancements**
 - Reports (Classical, Interactive, ALV), Module Pool programming, Object-Oriented ABAP, Enhancements, BAPIs, BADIs and debugging.
- **ABAP CDS & OData Services**
 - CDS view modeling, service exposure, and OData services including deep-entity structures.
- **SAP S/4HANA Application Development**
 - Custom developments and extensions on S/4HANA for SD and MM business scenarios.
- **SAP BTP Application Development**
 - Development and deployment on SAP BTP using Business Application Studio and Cloud Foundry.
- **CAP-based Backend & Middleware Development**
 - SAP CAP (CAPM – Node.js) for building middleware services integrating BPA, S/4HANA and HANA Cloud.
- **SAP Build Process Automation & Workflow Solutions**
 - Automation design using SAP Build Process Automation, Forms and Desktop Agent integration.
- **SAPUI5 & Frontend Development**
 - UI5 Freestyle and Flexible Programming Model applications with annotations and role-based UI design.
- **Adobe Forms & Output Management**
 - Adobe Forms development for Purchase Order, Sales Order and Goods Receipt with complex layouts.
- **Integration & Cloud Services**
 - OData-based integrations, SAP BTP Connectivity, Destinations, Document Information Extraction, Object Store and SAP HANA Cloud.
- **Techno-Functional Expertise (SD & MM)**
 - Strong exposure to Order-to-Cash and Procure-to-Pay processes, including forms, reports, workflows and business enhancements.

PROFESSIONAL EXPERIENCE

IT-Resonance Inc Pvt. Ltd, Chennai

SAP ABAP Consultant

Mar 2024 - Present

Southern Pump Tank Company - SPATCO Energy Solutions Sept 2025 - Present

- Prepared and enabled the technical environment for Message Broker integration, including the deployment of the Message Broker application on the SAP BTP Cloud Foundry platform.
- Set up and confirmed the technical connectivity between SAP S/4HANA and SAP Field Service Management (FSM) on the Sandbox, Development, and Quality systems.
- Set up SOA Manager services to facilitate secure integration between SAP S/4HANA and FSM using the Message Broker.
- Supported the SAP Basis team during SUM activities, including SPAU and SPDD changes.
- Conducted Custom Code Remediation for all custom code developments using ATC and ensured S/4HANA readiness of programs.
- Replaced custom REST API handling classes with standard SAP classes to meet S/4HANA and clean-core guidelines.
- Documented all custom code remediation activities and functional delta changes discovered during the ECC to S/4HANA system migration.
- Supported system integration testing (SIT), user acceptance testing (UAT), and regression testing in the Sandbox for functional teams.
- Imported and validated variants for SAP Query programs in S/4HANA Development and Quality systems.
- Set up and supported technical integrations with third-party customer portals.
- Tested the end-to-end integration process between SQL Server and SharePoint-based material extension to ensure proper plant extension data transfer to SAP.

CF Industries - Clean Energy S/4 Implementation Oct 2024 - Jun 2025

- Analyzed customer requirements for Clean Energy Materials implementation in SAP S/4 HANA on-premise environment.
- Developed custom reports to automate Clean Energy sales order creation from contracts based on scheduled intervals.
- Created reporting solutions for automating internal plant processes including delivery creation and reversal workflows.
- Resolved technical issues in Adobe forms to ensure seamless document processing.
- Enhanced existing Sales & Distribution (SD) business processes by optimizing system logic to accommodate Clean Energy materials throughout the order-to-cash cycle.
- Developed legal entity program functionality aligned with Clean Energy regulatory requirements and business scenarios.

BTP - Invoice Automation - PoC

Mar 2024 - Sept 2025

- Identified customer pain points and developed innovative use cases for automated invoice processing solutions.
- Architected a comprehensive solution leveraging SAP Business Technology Platform components including Build Process Automation, Desktop Agent, BTP Connectivity, Cloud Application Programming Model, Flexible Programming Model, Build Workzone, Document Information Extraction Service, Object Store Service, OData, ABAP-CDS, Business Application Studio, and S/4 HANA.

BTP - Invoice Automation - PoC contd**Mar 2024 - Sept 2025**

- Developed an administrative application for monitoring and managing automation execution processes and performance metrics.
 - Implemented a CAP-based backend server functioning as middleware to facilitate integration between BPA, S/4 HANA systems, and SAP HANA Cloud.
 - Created a role-based frontend application using Flexible Programming Model with advanced Annotation and Semantics layer functionality.
 - Successfully deployed the solution to SAP Business Technology Platform and integrated it into SAP Build Workzone for seamless customer adoption and usability.
-

Kaar Technologies Pvt. Ltd, Chennai Associate ABAP consultant Dec 2020 - Feb 2024**Municipal Group of Corporation****Oct 2023 - Feb 2024**

- Conducted analysis of business requirements for a customized Timesheet Application designed for construction and production workforce management.
- Evaluated and presented the strategic benefits of implementing SAP Business Technology Platform solutions to address specific business challenges.
- Created and refined application interface designs using Figma to align with customer specifications and approval processes.
- Configured SAP Business Application Studio environment for Timesheet Application development utilizing UI5 Freestyle methodology.
- Integrated the solution with SAP Build Process Automation to establish efficient timesheet approval workflows.
- Developed connectivity between SAP SuccessFactors and the Timesheet Application to manage hierarchical visibility of worker and manager profiles.
- Successfully deployed the application to SAP BTP Cloud Foundry environment from Business Application Studio.
- Designed and implemented custom approval interface templates within SAP Build Process Automation Forms to enhance user experience.

Mitsubishi Electric Automation – Implementation**May 2022 – Aug 2023**

- Worked along Activate Project Methodology (Involved in Prepare, Explore, Realize Phase).
- Worked as secondary MM Consultant till Explore phase and Primary Technical Consultant in Realize Phase.
- Configuring PR, PO, Scheduling Agreement, Contracts, Output Determination, EDI-Idoc, and Flexible Workflow as Functional Consultant and understanding the PTP.
- Understanding the concepts in OTC and worked in customizing the Sales order form using Adobe.
- Worked in Adobe Forms for Purchase Order, Sales Order and Goods Receipt with Complex Layout.
- Developing FMs specific to SD and MM for integrating the system.
- Developing custom Module Pool Program and added as a Menu option in Sales Order Transaction.
- Custom Development for Saving the DMS Documents into FTP Location using FTP.
- Enhanced the QM notification Tcode using Custom Module Pool Program.

METUS - Hypercare support**Mar 2022 – Apr 2022**

- Handling EWM Containers whenever issues raised from the business side.
- Updating Master Data using LSMW based on the data provided by the business.
- Solved hyper-care tickets specific to MM and SD forms, enhancements, reports.
- Worked in CR such as report creation for sales report, form development for customer invoice, and enhancements.

SANTEN - Documentation**Jan 2022 - Feb 2022**

- Documented differences between SAP ECC and Latest S/4 HANA System.
- Analyzed and documented 15+ Standard Global Scope Items specific to Material Management, and Sales Distribution and Presented to SANTEN.

Training and Application Development**Dec 2020 - Aug 2021**

- Trained in both Technicals such as ABAP, Adobe Forms, Web Services, FMs, Enhancement, PI/PO, UI5, Workflow,. and Functional Modules such as SD, MM, HCM, FI, PP, PM, EHSM, QM.
- Trained in Angular, Nodejs, Express Library and Flutter.
- Developed ERP portal that includes 7 Applications provided with all the basic requirement from each Functional Modules of SAP.

EDUCATION**Bachelor of Computer Science & Engineering 2017 - 2021**

Kongu Engineering College, Perundurai, Erode, India

Higher Secondary School - CS**2015 - 2017**

Malar Matric Higher Secondary School, Paramathi, Velur

10th - SSLC**2015**

Government Boys Higher Secondary School, Sankagiri, Salem
